

Untitled Note

Sat, [REDACTED] 20, 2019 [REDACTED] 6:08

SUMMARY [REDACTED]

[REDACTED] degree, entire semester, problem, hated, notes, situation, pissed, diesel, life, financial, giving, worse, hatred, school, [REDACTED] [REDACTED] study, tiger, brand

SPEAKERS

[REDACTED] [REDACTED]

[REDACTED] [REDACTED] 00:01

personal notes [REDACTED] afternoon. [REDACTED] got a lot of swimming around in my head right now. And I [REDACTED] wanted to take thought take water and maybe have a chance to put some the down and put some of the thoughts down in my head. Because it's it's, you know, it's it's difficult for me to sit down and write and do all the things I need to do and [REDACTED] my data. So I figured this time, I would give her a chance to take my notes and let me go through it and maybe multitask or something right now, but I'm stuck behind a red [REDACTED] That's going 45 miles an hour down to 55. And we got a lot of cars behind me, they're really pissed. But anyway, I so I guess we'll get started. Right now, we mean, first off, we have the situation with the financial my financial future. You know, I was hoping to find my note, I was hoping that I could [REDACTED] show up on campus and find a good professor and find somebody I want to study underneath, and do all this. And instead, What happened is, as I showed up, and these people hated me, for no reason they hated I mean, I showed up to college, and these people [REDACTED] hated me for no reason. And they hated me because of the Color My Skin and they were mean to me. And they, And it was not fun. And I spent the entire semester studying [REDACTED] that was not at all my [REDACTED] and with people I don't want to be with. And that was a, that was a pretty big hit. I mean, that was pretty big. Although it was a good experience, and I had fun, and I'm, you know, got me out of the house and everything. And it got me on my way. It's kind of [REDACTED] The other thing that pissed me off is It seems that, you know, my life [REDACTED] gets I [REDACTED] get poorer, and I get worse and worse off, and I get more and more alone. And so things [REDACTED] keep getting worse and worse. And there's no, there's no relief inside. And there's is I don't know, any means to change my situation. You know, that's the real big issue with my financial future is, is, you know, what am I going to do? It came pretty obvious that no one's going to help me like that school at school doesn't even like me. Like, they're not going to make life easy for me. And they, they have no reason. I mean, it's so funny How fast hatred built and how it was pretty obvious that because I was some quite Southern male, that every like, all my options would be closed, you know, all the doors to be closed, and it'd be shut off for me. So I'm really not happy with that. Really not happy with that. But so I don't know, even if you're like right now it's like it went through college. And If I went through and [REDACTED] said, Hey, guys, I need a degree. Give me a degree, so I can get out of here. Even If I did that. Right now. It wouldn't be working. Yeah, it would not be working. I need to start going to the gym and losing weight. Okay, I've said enough. So,

██████████ ██████████ 03:43

you know, I'm, you know, I thought we got out and got a ██████ Right now. You know, but I said, All right, I ██████ wanna get my degree, you get into green, and then congratulations, you're out with a degree, What the ██████ are you going to do with your life. That's the that's the problem I'm at right now. It's like, even if I got a degree, I would still go around, I'd be in the same exact same situation. And that's what we're, we're afraid of. And that's what it looks like in that school. had that school, it really looks like there's a need for the professors and those who are in charge. That's a really cool, cute little mower there. That's, that's a diesel turf Tiger. With a hood on top. It's a brand ██████████ new diesel turck Tiger with a plugin. And that thing is getting brand new. Everything else on is sitting in his brand new truck. That's My problem is that my little my resources are old, or they're non existent. I don't have the resources I used to have. That's another big problem. But the other big problem of mine is, is the fact that my mother, I can't get her to do ██████ She won't get a ██████ She won't get stuff done. I can't get her to do anything in the house. She complains all the time. And now what she's done is she's like blown my entire summer. I can't get her to do anything. Like she volunteered us for this entire ██████████ I didn't do classes because of it. It's put me in a bad situation because of it. I'm really not happy and then she's not getting get her to finish it off. But without her starting more ██████████ You know, I ██████ really can't get her to do anything and so I gotta worry about her. So my funds are not working out the crop is in the fire is not working ██████████ She planned my ██████████ day for me. She's playing my entire summer for me, didn't tell me about it and didn't didn't plan in the fact I had school.

██████████ ██████████ 05:42

Things bothers me is that there's there's several, You can see and Thomas and you can see Barnsdall that there's money going around and there's opportunities, and they're not they're only giving it to those to this small little group of people, and they're not giving it to everybody. They're not freely open and they're not giving it to me. I don't have any opportunity. That's my other problem. Now The problem is I'm tired of ██████████
