SPEAKERS

[REDACTED] [REDACTED]

[REDACTED] [REDACTED] 00:01

So, a TV. Late Night excursions [REDACTED] got a film with the barre County Sheriff Sheriff's Department and previously. I had been told that their policy was anytime they receive a phone call that they're going to send and share it's out there that anytime they receive a phone call that they absolute it's mandatory that they have to send a deputy out there to [REDACTED] That's what I've been told. So our call tonight. Here it is 130 at night. Call tonight, because we had some guy, some guy driving his ATV down the road. blaring country music at the top, and top volume at 130 on Friday night and called the Sherman, and they told me that they have to talk with, with a sergeant on duty now. And now, they no longer. You know, it's no longer a gun. I call this in a deputy out this No, they have to bring it up with a deputy, and the deputy has to pass it. They'd have to bring it up with a sergeant, and the sergeant on duty, then decides whether he wants to dispatch a sheriff's to share, or not. So, that may [REDACTED] be because of the coronavirus but that would be really interesting. There's an interesting change of policy.
