[REDACTED] [REDACTED] 00:01

Here it is six o'clock, or 5:52pm. On [REDACTED] as previously noted in multiple messages we have [REDACTED] this, the ATVs RTV drivers have driven. Every day this week we have seen them every day this week. There's no sign of them slowing down or even hesitating driving their vehicles on public roads and highways. And these are extremely loud vehicles. As previously noted, but today. We've already had two sightings we've already seen twice. At 3:30pm, or I guess it's around 330 and it was noted, during a phone call with a friend that came up, and that was extremely loud one. And now here it is [REDACTED] 5:52pm, and we hear them [REDACTED] so that I [REDACTED] them twice while I was on the phone with a friend. And now hearing them [REDACTED] 2pm so there's three times today, where we've had auditory. So an auditory sighting or an auditory indication that they're there in the area. So there's obviously no no sign of them. Slowing down due to Corona Corona virus, and during their duties, due to the corona virus and cobit 19. We have no we're not really concerned with calling the police because we know we will get no response, because they have more important things to do, like, watch like taking care of themselves and not being contaminated. So, but, you know, this is a mandatory. You know the state's under a mandatory shelter under mandatory lockdown. Because the coveted 19. And, yeah, it's [REDACTED] another sign that they're not that note that they're not taking it seriously, they're not taking the warnings they received seriously, they do not, and they're not taking the state law seriously. So, shouldn't be on the road. I'd have no reason to be on the road. But they're definitely doing so. [REDACTED] want to go and make those remarks and document my sighting. And, yes, well, we're expecting there'll be another grand finale later tonight that tonight will be pretty that they'll be the period be pretty busy night. As far as they're concerned, so. Alright.
