SUMMARY

dragster, admissible, living, redline, grandfather, drive, highway, road, engine, infuriated, drag racer, peeled, talk, own discretion, reason, reckless driving, multiple offers, helmets, deny, security cameras

SPEAKERS

[REDACTED]

[REDACTED] 00:04

All right, here it is 7:30pm on the nose. And we [REDACTED] from our friend the off road monster thing. It is. He is definitely out there right now, tearing up the route. 7:30pm. That's my heaven make it [REDACTED] Every day, every single day. Since we've call called cuts. We've seen every day. It's always the same guy who rides with his kids, and his wife, Without helmets. And he flies. So, [REDACTED] today, and also today. Our other neighbor, our other recent nuisance. The drag racer. The dragster came showed up, and I think it's about 3pm today. He came by and he soon as he pulled out on highway [REDACTED] He ripped his engine and [REDACTED] as fast as he could. And he peeled out, peeled out 90 miles learn, fully tapped out as engine, he, he had to go well pass redline, I mean he more than redline did. Protect out his damage and, you know, we could hear him but like we couldn't have carry on a conversation we couldn't do anything else but listen to his [REDACTED] motor. And it infuriated me, it's [REDACTED] absolutely infuriating. There's no reason for anyone to drive like that that is reckless driving. And of course I know when I talked to the sheriff about it. Nothing's gonna be done. They'll go out there and give them a warning or have a talk with them and nothing will be done. So, even supposedly like I've offered to send them. I've offered to multiple offers to send them videos. And every time they deny it. They refuse it, I want it built into this we can't use it, which I've tried to find research on why they can't use it. And I haven't found a reason. There's no reason why they can't use it, it's the, you know, security camera for security cameras are fully are admissible or not it's, yeah they're admissible, and the court system, they use them all the time. They [REDACTED] these guys don't want to use them. So, I don't know what to do but I am, I'm back bound and determined I'm going to get that stopped. They're going to get this stuff stopped out here I mean both of this both the side by side guy, and the guy that the dragster, the guy that drag races every time he hits highway [REDACTED] I did not. You know my family's been living in for 30 years. And we're [REDACTED] you know it's [REDACTED] at this point in time, we feel like we're living living on the end of someone's private racetrack. And that's not you know we didn't move out here for that. My grandfather didn't build a farm out here My grandfather was here before they were. And there's no reason anyone should have to live in an environment that sounds like someone's private someone who, who, you know, uses public roads for their as their own discretion and don't follow the laws and don't drive in a manner that is safe for other people. So we're I'm pretty furious about that. Anyway, that's it.
