SUMMARY [REDACTED]

rtv, problem, parties, dragster, caravan, call, sheriff, reds, generate, hour, races, annoyance, perform, drag, volumes, noise, [REDACTED] consideration

SPEAKERS

[REDACTED] [REDACTED]

[REDACTED] [REDACTED] 00:02

So here it is 830, and all I've [REDACTED] for the past like hour. Are these [REDACTED] RTV things. That's another one. Now, if I can get up in time to go the sheriff more calls. Because this is ridiculous. This is really ridiculous. That's all I've [REDACTED] For the past like hour, like since the last time reported, I've [REDACTED] them constantly [REDACTED] and [REDACTED] and [REDACTED] So it seems like they're [REDACTED] running, running wild tonight. I mean, we've already seen him once and caravan since the last time we call. So, I mean, that's not a worst problem. That's an annoyance. But the problem is, is the damage dragster, the guy that drag races in reds his engine. Every time he passes our house. That isn't that his problem. But, this stuff is [REDACTED] annoying ship. But either way, both parties show no consideration for anyone else that's that's the entire point behind this is that both parties have vehicles or perform actions that generate, and an action that they perform an action to generate volumes of noise. So, it's [REDACTED] a boy. Anyway.
