[REDACTED] [REDACTED] 00:01

So, yeah, we were told that they only have two deputies on duty. And it turns out, like we were we kind of believed that. And they said that you know and we kind of believed that we were suspicious at first because we had the [REDACTED] [REDACTED] come out and accuse me of starting in like accuse me of being belligerent and said that I was out, you know, I was being, you know, belligerent and offensive and everything else he was me being out of my [REDACTED] mind. And so we were kind of like, kind of curious we're like what is going on here. And they said, Well, no, we only have two only two deputies and we always travel in packs. Well, since then, they don't. And there's two right here. And I've seen like three of them and I think I there's one behind me. So I saw two I passed two, and then I see two right there. And then anyway. I got to put, I had a brute bad foot cramp right now and it is really I'm really impatient really it's a pain. So anyway, so we believed him, you know we believed what they were saying was true. And so, anyway I [REDACTED] drove past two of them. And then there were two other sheriffs sitting at flash foods. That makes for two plus two is four. So, that's really suspicious. And then when I drove up it's like they all dispersed. And it was like, That's [REDACTED] So, I'm [REDACTED] that's rarely sufficient. So we're [REDACTED] getting like the run around. They're [REDACTED] giving us the runaround. And it's [REDACTED] really really suspicious. You know at first it's like every time we call we gotta show up, and then it's like, No, they don't. They it's up to them because we're gonna come in it. So that's what so now it's like they, you know, it's like they're trying their [REDACTED] they're protecting these guys is what it looks like it looks like they're protecting these guys. And they're trying their darndest, not to not to serve the law, they're not, they're trying to turn us not to not assist us and serve the law, they're [REDACTED] doing, you know, this one is beginning to look like it's beginning to look really suspicious. And so yeah and then that those two are parked on the side of the road right there. And if I didn't know better, the way they all acted. If I didn't know better. I would have thought that they were setting themselves up for sting. And I suspected that I was the target. I mean that's what I was expecting because how they all [REDACTED] dispersed like disappeared. And, and then how I went by haddix house. And all of a suddenly boom hadn't hadn't exhausted, which is usually lit up as black, dark, which is kind of odd for them because they do usually don't do that. Which means, it [REDACTED] kind of. It's almost as if like they were they are expecting me to go by their house to see if I can identify their truck, it's [REDACTED] it's really [REDACTED] And I know I can be a little bit over paranoid sometimes. But this is, that's [REDACTED] that's very [REDACTED] [REDACTED] behavior.

██████████ ██████████ 04:03

So, I don't know. I got my ██████ I'm gonna take the back leg, the back way in. ██████ like going round my elbow to get to my thumb, but I'm gonna take the back way in. ██████ out of curiosity sake, and go for a little bit of drive, there's actually, actually I meant to go for a little bit of drive inside town. But I got a little nervous I ██████ forgot to do it. I got a little suspicious that I kind of want to get to. I want to get to some of this that I want to get back to my computer in the house and do some more research via social networks because I'm like I, I used to be able to see Mr haddix. I used to be able to see his profile on Facebook. And now he's gone. And I've seen genius. And now it's gone. And I can't find his brother, like I can find pictures of his brother, but I can't find his brothers profiles not coming up, which makes me suspect that either a his brother, brother doesn't have a profile, which I don't believe. Everyone's got a Facebook profile or. It means that I'm blocked from his brother too. Is that okay I think that's a, that's another road that cut down through here. They actually cut another road, so they can actually add people this is this used to be all all Woods back here back in here, and they actually ██████ did a big check and then they put up, double wides, they're stuck in nothing but don't wind around here. And, you know, it's ██████ it's ██████ lost them it's ██████ another example of loss and loss of the woods incur increased urbanization. That's the one that connects, and you go way down through here, and you take a left. It's been a while. But it's not that one. It's right here. Yeah, and that's a dead end. And then, so pioneer land group 356 acres, ██████ only and so they're selling this ██████ off. This is the largest set of woods, they're selling it all off independent subdivisions. And I can't do anything about it. This is Perkins road, that's where I'm going right now. I did not mean for this audio session to be so long, but it is. And God, there are a they've, they've thrown house after house and halfway there is this ██████ good enough. Woods, back in here, and it is now house after house after house. Man, it's kind of sad. But this is the road that they are they all the rednecks gonna tear up. This is one. This This relates to ██████████ And this is all part of the land and they tear up constantly. But they're side by side going. So,

██████████ ██████████ 07:32

hi. I'm ██████ getting really suspicious. In fact, I'm actually seeing a very close set up, instead of tire tracks and so that's definitely a side by side trail that I'm actually following. I'm not following it I'm actually driving is ██████ a pro bow and they cleaned up more land. So, um, yeah so this this this group playing group is selling off this land, and I'm telling you. You know, I really am ██████ sitting back and watching my family Wow, and there's a big mud pot. While a big, a big hole mud hole where they were they've been racing dry, and you know going in the mud. So, that's crazy. And then here's some gravel, I've actually seen them take this gravel down. And, yeah, it's sort of a redneck rednecks are going, oh wow yeah they got a big mud, mud wallet right in there they're going over and over and over ██████ and then then there that's a driveway right there. That's another driveway so they're getting ready ██████ to divide this land up, and to sell it off. You know, and I'm looking at these cars and not ██████ one of them is suspicious, man. Yep. So that's the beginning of the end. This is the last, if you look at ██████████ This was one of the largest green spots. It's gone. Once it's like Middle ██████████ will be nothing but gray, nothing but asphalt. Yep, there's another big mud, mud bog and hole. So they're going back in here to hit these mud and these, these mud holes,

██████████ ██████████ 09:19

██████████ ██████████ 09:15

tearing up county roads.

██████████ ██████████ 09:28

Yep, there's another, there's another Waller. Yeah, that's a big time wall right there. Yep, another one and there's another one there. It used to be the prettiest area because there was nothing out here. And these rednecks have come in, they bought it. And they're dividing it off and they're all coming out and they're coming out here and then throw in double wides, and every one of them wants to think they live in the, quote unquote, wilderness. So, they all carry four wheelers motorbikes everything else, and they really ██████████ live in another subdivision, that's another big, big Waller. Big time Waller right there. And wow then this land got ██████████ flattened out here. Big time Waller big time Waller. Yeah, this. This road is a continual rednecks are definitely, definitely baller in this place out. Oh wow. Yep. Another big time Waller right there. Yeah, they're tearing this route up. So this is where all they are all going right here. And they're going off in this land and you got a bunch of Timberland and they're driving on Timberland and beside me is the hanneke farm that flattened 300 acres. What.

██████████ ██████████ 10:52

Oh yeah, that's a big 10 Lawler. All right. Yep, I guess I'm ██████████ gonna ██████████ all the way through this and continue talking, I wasn't good. It wasn't my intention but I guess I'm gonna do that because audible does translate. Anyway, alright so now I'm on call. And, yep. A lot of a lot of wall ours have been here and this plate this is even more tore up, and they keep this place or they keep this road or they keep it, and the county comes back in, it's ██████████ like taxpayer money is keeps it continually goes back into here. And what that looks like that's been newly logged actually right there. And it looks like this newly log and the probably is. So yeah, anyway, taxpayer money is continually being dumped on this road to flatten it out to pave it flat out pay down payment, and then they take their formulas back here and they tear it up, and then they then taxpayer money keeps on going back and going back to the police don't do anything about it. So all of our taxpayer money is going to maintaining this private mud holler for these guys, it's really kind of screwed up. That's really ██████████ up, actually. And because there buddy buddies with somebody, they don't care. No one's doing anything about it. Um, if I didn't know better, I'd say that they are amazing and this is it this is well that's a big one back there that's it, that's a row that they're traversing nine miles and are back in there. So yeah, yeah, yeah, see, they don't care. This is this is our This is taxpayer money this is our, our taxpayer money taxes nearly kill us. And these guys can be here wow that's a big one. These guys come in here and they're wasting it, they're literally blowing taxpayer money and no one's reporting them. No one's saying anything and the police are doing everything they can to not do anything about it. And at this point, it's kind of like, you know, it's like, you know, I understand you gotta let some things go. But there's a point where it's like you draw the line. And who do you protect and who you don't protect. I mean do you protect someone because what they're doing is really not that bad or do you protect someone because they're your friend, or they say that your friend whose real friends don't expose you to that. That's a big Waller real friends don't put each other in this situation, they don't, they don't at all. So, yeah, it's not that cows. It's definitely not that house. And I won't slow down here, because I am kind of pacing it through here.

████████████████████ 14:01

They all had their cars parked really close to the house. It's pretty obvious. It's like it's, they're hiding their truck that they're hiding the truck. They're doing knowledge, see. Yeah. They've got it they have it inside leg. And the cops. The sheriff's are trying to protect them.

████████████████████

So, yeah. I definitely think somebody, somebody needs to bring it to Broadway and you notice ██████████ is not here anymore. Yeah, they probably got rid, they got rid of Banta. I bet you anything. So you need to find out. Because this Sheriff is looking pretty crooked right now.
