Yes. And yeah, as I was driving by Alan haddix house. I saw the distinct distinctive reflection of a white paint [REDACTED] on the body of some truck. And I know that's a truck. I mean, I know that's who that's, that's a truck I've seen it in the driveway, I can see every other truck. And they usually actually keep a light on. I think I thought I thought it was pretty interesting that tonight of all nights. They turned off that they turned off a light alert that they have right beside their house, they actually turn that off tonight. Usually they keep it on. But tonight they turned it off for some reason. And I saw every other truck, very clearly that lives on that road. It's not that. And then as I dropped past, I saw the very distinctive. The sign indication site of flight paint, reflecting off of the security light to have. And I noticed it right there and it's it. Yep, that's it. I can see the outline the silhouette of the truck. And I can see the color. And I know that Tim because I know what I you know I've been lifted from there and in front of that road forever. I see what's coming I see who goes in I see who goes out. And I know what truck he originally had, and I know that he got himself another truck, because I haven't seen his truck anymore that and I've seen that truck pull out of his driveway, I know that's his truck. There's no doubt. So,

yeah. At this point it's like it's like y'all are doing everything you can to avoid. It's like the sheriff is doing everything they can to avoid acting or penalizing or admitting that it says person, it's it's it I mean, we have intent, we know who it is. We know which guys they were you know it was. So,

[REDACTED] [REDACTED] 02:30

I don't understand yeah he said well we don't know who it is and I was like, you know who it is because you you pulled them all over a week ago, two weeks ago you pulled them all over you pull them all over and you tend to driver's license you know who it is. You know you have body camera you have, you know, all this documentation, you know exactly who it is. You know, it's

█ like, you know, I mean there's it's out there obviously. It █ it █ it seems, it █ appears, they're doing, they're they're █ they're going to extreme lengths to deny that they know who it is or in NY, you know, they're going to links to. I mean to avoid performing an action where anybody ought to be like, Oh yeah, that's it. Hands and cups. So it's kind of █ got a little bit ridiculous. So, anyway.

█ █ 03:41

They said they only have two deputies and now it's like I passed two. I █ passed two, And then there's two more sitting out here exactly what it is. So, that's the sheriff right there. So that's three, and then there's another one. That's poor. So I don't know what the thing are they only have two deputies. That doesn't look legit right now.
