[REDACTED] [REDACTED] 00:01

So yeah, that was good that was good documentation that's good video right there. documented I think the younger. Some young kid it was some younger headed kid driving his side by side, off of down Freeman road. And then he turned down turned on, Finney Lake Road. I don't know why they changed the name of it, but I did. And so that was as good documentation as gonna sit out here. I was [REDACTED] sitting remarking that you know we're moving let like the. Let the RTV thing go into side by side and go because although they're a nuisance and they're a massive nuisance and they shouldn't even be happening, or nuisance or massive nuisance, and they shouldn't be happening. They're not nearly as aggravating as someone, you know, redlining his engine, every time he drives by your house. I do me every time he drives on the house. And unfortunately, my security camera that I had, although it has some drama about my house, tons of times. It is unable to pick up the volume. The actual camera itself the microphone and camera is actually unable to capture the volume of him redlining his engine, which is massively disappointment, I actually have it [REDACTED] somewhere. And I'm gonna make it get an audio [REDACTED] one these days. So it's [REDACTED] [REDACTED] it's [REDACTED] really frickin [REDACTED] And so there's another one getting cranked up. So, I don't know, I've [REDACTED] got hoping Mr Haddad would drive down here and redlined his engine out because that's usually what he does anytime I step outside my house. This is [REDACTED] [REDACTED] Yep. There's another one. So I'm gonna go take video of it coming this way.
