Although we have given up hope. Giving up attempting to receive assistance from the sheriff's department who obviously can't find these guys but they're at the same spot at the same time every day and they've already pulled them every once, but they can't find them. So, we've kind of given up on on getting help [REDACTED] the side by sides but they're really rare really going tonight. They've kind of went last night I mean it's gotten to be like, I mean we have side by sides we have kids before wheelers. I mean it's gotten to be that that area back there, off of Finley [REDACTED] like road has gotten to be like the community mud bogging spot where all rednecks can take their children, and go off and play in the mud. And it's like, you know, it's got kids like we actually saw one mom, cooling, a kid on a motorcycle with a rope. Like all the, all the dividends to do all that would have to happen is, is the is either a bump or whatever, turn the wheel sharply. That thing that fork will fold over underneath there underneath that bike and [REDACTED] pitch that kid, you know, and then the mom would [REDACTED] be dragging the kids, you know, it was [REDACTED] It's kind of crazy we have, you know, we see kids all the little kids all the time on dirt bikes, right down that road. And it's gotten to be [REDACTED] ridiculous but then yet they can't find them. What it is, they've got other things they want to do. They have more important thing things that they've decided that's more important for them to do. You know, we call it repetitively repetitively repetitively. You know, we've gotten this area back here that's become a free for all. But I guess what I mean is, get hold the [REDACTED] State Patrol and ask them to come out here to monitor it once or twice. So, [REDACTED] kind of ridiculous.
