the last thing I wanted the last thing I needed. The last thing I wanted in this entire world was to have a neighbor to have someone move on to the property across the street for me. It has been my childhood dream. It has been a dream and goal I've had since childhood, to hold on to the farm and to expand it. That is in my childhood dream. The number one thing the reason why I've moved home from college and dropped out and moved on the college sticker my family. I've been fighting my I've been fighting other other family members off and preventing them from telling the farm. The reasons I've been I've been going through all this depression I started a landscaping company the reasons for everything I've done has been to hold on to this property and not have anyone move across move into the property across the street for me. The number one thing whenever someone says what do you like about your home? I always say my privacy. I like the fact I don't have anyone living across the street from me. So now that it's happened, and I don't have but one and two neighbors. All that was for nothing. Everything I've worked for it's absolutely gone. I didn't get one neighbor. Because Shane didn't Blinky chain didn't measure up the property right? He went in someone else's land and guess what now I have two neighbors and one of them is developer. The other one has been really not nice. They've been an asshole. Alright, so not only did I lose like all these goals that I've had since childhood, everything I worked for for 10 years. Not only did I like lose that and all these childhood dreams and everything,

everything that's held me together not only do I lose that, now I've got two [REDACTED] people I got to worry about and if that's not bad enough, Shane absolutely mutilated that land. Okay, so that's it right now. Like, I don't think anyone could have [REDACTED] me over and done a better [REDACTED]

[REDACTED] [REDACTED] 03:16

okay, there's a deer stand that was on Danes property that was there. I don't know what happened to it because I haven't been over there and to look for it. But didn't tell I can have that deer stand. So whenever Shane started, okay. So when everything started moving on there, I tried to get it back. Okay, because it's mine. I don't want anymore. Okay, fine. [REDACTED] it. That's what I was doing over there. The No Trespassing signs. Guess what? That was carrot. Ron and Terry. I could give a [REDACTED] That's Ron and Terry Karis, the one who said I don't want to have a road built through my property. Although you cleared it, but [REDACTED] Terry told me that alright. And what I was doing back there was making sure that somebody didn't build another road to their [REDACTED] property. Did you even know that there's a road on top of the hill? No, there's been I don't know why there's a road there because there's already one across the top of the hill that goes right through right to your property cleared cleared off. But I don't give a [REDACTED] I [REDACTED] I don't give a [REDACTED] The worst thing about all this [REDACTED] is the fact that Dayton moved away. Didn't even say a [REDACTED] [REDACTED] It's not like I haven't known him for all my life. Yeah, by the way, I have known him for all my life. I've known him for longer than you. We've been here since 1965. We were the second people living on this road. And [REDACTED] Dane didn't even have the courtesy to say hey, by the way, I'm selling off our land. That was bad enough. Bad enough. The fact that you didn't even tell me like by the way, I'm buying this guy's house and I'm gonna move someone into your in in front of you. You didn't even tell me that. That property. We didn't have the chance. The opportunity that I've been waiting and working my entire life for you didn't even give me a [REDACTED] chance. You hooked up your buddy. And now guess what? I have to live with that hassle. You didn't even [REDACTED] chance. I'm really one opportunity I needed and I didn't get so I don't want any help. I don't you know, I don't think there's any you can't do anything else to hurt me worse than this. So, you know, is at this point, you know, somebody [REDACTED] called the sheriff and filed a [REDACTED] report. Saying that I was beating my mom. Okay. That is lower than low. That is unacceptable. That's unexcusable and then have the like a week later, the sheriff call come over to my house and then accuse me of trespassing. On Property when I've never even been over there. Every time I move since you've moved in every time I've moved, I've had a shirt over here. And next time it happens, [REDACTED] gone down. I will get [REDACTED] representation and this ship will blow up because I'm not going to take it anymore. So I mean you and Shane walked in here like you were [REDACTED] it was a land grab and your [REDACTED] invasion force. You didn't tell anyone. You didn't tell anyone you move in. You didn't do nothing. Here's a boom it happened overnight. And I suspect that that was done on purpose that we were kept in the dark on purpose. Because for some odd reason [REDACTED] Sappington lied to my face. Okay, said he didn't know anything about it when but god [REDACTED] it. He's the one who did the real estate deal. Okay, so if you knew who, like who started all this [REDACTED] to you, it wouldn't be alright. I'm [REDACTED] sitting here trying to do what I was told. Like, get the deer stand off the land, like put up No Trespassing signs or something. Like make sure that no one's building a road through my house. Okay. The rest of that [REDACTED] Its own you know, dude, you miss needling. vissla [REDACTED] man. Because you don't it's it's going bad. And this thing doesn't need to escalate anymore. I don't need any more [REDACTED] on my plate. You've already shed enough on my life. So there you go. Have good
