Now, I cannot testify. I cannot testify. The fact that the only thing I can testify to is the fact that Well, I cannot testify. I cannot testify to the fact that Doug asked Dayton when he was, however old he was when he was a child. If he could, if he could have you know, if Doug could by Doug asked Dayton when he was a kid, if he could find it in towns that's what Doug Doug's claiming. Whether that's true or not, I don't know. I don't have any proof of it. I never [REDACTED] that before. And I cannot claim. But [REDACTED] the fact that the fact that Dayton Doug moved in, and Dayton was moved out, before he even was able to part of the part of the doors came back to this. But it's my favorite person. There's going

[REDACTED] [REDACTED] 01:27

to integrate in both if we reduce it

[REDACTED] [REDACTED] 01:35

I mean I've known Yeah, I've been with her all day. Why not?

[REDACTED] [REDACTED] 01:55

Come on, girl. So I gotta say, I cannot testify to the fact that that you know, I cannot confirm or verify the claim that dog is making that. You know, he asked Aiden if you could have placed when he was good. Okay, but the fact that the second thing that Doug moved in to a trailer don't move too his entire family into a camper, trailer, a camping trailer, or a camper behind Dayton's house and they lived out of that. While dating while Dayton was in the hospital, or while they were while they were moving Dayton out of his house is suspicious to say the least. Very suspicious. I mean, that's um that's more than inconveniencing someone that's rushing that's rushing them out of their own house as pushing them out of their own house. You know, if I'd been in a hospital for how many months if I'd been in hospital for months. Last thing I'd

want to do is to you know, come to come to some strange house that I've been moved into, you know, that someone else moved me into and have to look for where my [REDACTED] at. That's it. That would be you know, last thing I want to happen. I'd want to go home. But everyone's different, but it's still suspicious. It's also suspicious that there's also the possibility that, um, Doug was kind of afraid that Dayton was going to change his mind, which still isn't good. So you have those things, they're they're all them suspicious. All of them are question. So that was how you know, that was, you know, so that's how it happened. Then there is this little issue. So I've admitted in this. I've admitted upfront, Vince Rizal, the fact that hey, I used an easement. I used an access easement to access land, the back portion of Ron and Terry lowest property. It was a known easement. And I use that I'll admit to that I testified to that. I promised that so yeah, I got to start coming out here more. I gotta start putting up security cameras, because I can't trust these. I can't trust my neighbors think I trust these guys. You know, they, I mean, you can't they can't trust them. They're treated like shooting you guys are awesome. So

[REDACTED] [REDACTED] 05:14

that happened, so um but the other thing that happened that was interesting, was um during this time of this of this land exchange I had somebody that lives on my road [REDACTED] coincidentally, launched a fault in the lodge a false [REDACTED] or falsely accused me. Falsely fabricated and allocation complete fabrication made the [REDACTED] with me that resulted in the rating of my house by seven sheriff's officers. That [REDACTED] happened to occur and all at the same time. And it had to been someone that lives on the same road. And then I got visited by another Sheriff with more fabricated [REDACTED] That I was trespassing on the property. So let's get this right. I was accused of trespassing and never did never been over this property. But then yet, Doug did trespass on someone else's property. And not only that, any poached on someone else's property. Nothing happens to him. I get blitzed out by Sheriff by sheriff's deputy. Is that not hypocritical or what? That's pretty hypocritical. For the more the new property owner who's who was chain taller, who my family has known his family since God was a child. Turns out he called the sheriff on me and said I was trespassing on the land. When I was using the easement. For using for access and Nizam. He said I was transferring land. It's not his easement. He cannot say I'm trespassing on land because it wasn't easy. That that happened. And then I got bus Africa. I got told I couldn't talk to talk to speak to or look at them ever [REDACTED] And these are the people that are going to be it's going to be my closest neighbor. The closest neighbor I have to my house. The guy that Doug put to be the consumer of my house told me I can't talk to him. I can't speak to him and I can't look at him ever [REDACTED] And I got told that by Deputy which was not lawful because the deputy deputy can't do anything about that. Because I didn't commit any faults. The only point that I committed was I asked him what he was putting on this property because the guy cleared out four acres. Well that's one running dog. So he clears up four acres and builds what looks like it's I don't know what the [REDACTED] is what it looks like two parking decks. And I see that because it's pretty obvious you can see from Rome it's pretty obvious he's I mean, the guys cleared out tons of land. It's not [REDACTED] You know, there's nothing preventing anyone from looking back there. So I get accused of that, but he [REDACTED] not only did you trespass on someone else's land, he actually encroached on their property. by clearing land that doesn't belong to him

[REDACTED] [REDACTED] 09:06

sounds like rules for me not for the rules for the but not for me. It's highly hypocritical. The entire attitude that these guys that I've encountered with both of these guys has been one of

entitlement and aggression. They think that they're that they're entitled to this land. And they're aggressive about it. But what's [REDACTED] is they're not aggressive [REDACTED] about their land. No, they're aggressive about everyone else's land too. Because they want all the land to themselves. They want all the land to themselves. How do we know this? Well, basically because Doug weaseled his neighbor into the built a private road onto his neighbor's land through the middle of his neighbor's land without his neighbor's permission. He weaseled his way into that he did not have permission to build a road. He had permission to traverse their property with a piece of equipment. But that does not entail building a private road. So that's another example of that. So you have these two examples here. And it's [REDACTED] all Yeah, these two examples you have these, this attitude of they're coming in to take over the land. So it's hypocritical it's very hypocritical.

[REDACTED] [REDACTED] 11:00

How do I know that Dayton has been in the hospital hospital this entire room? Because a dog is telling the truth and that is the case because God told me he said [REDACTED] Danes been in the hospital this entire time. He's had COVID. To dog even himself confessed to moving moving into Dunes moving Dayton out and then selling off all the land while it was in hospital.

[REDACTED] [REDACTED] 11:38

Now whether Dayton really had a choice whether Dayton had full capacity is mine, that's a whole nother question. Because I don't know. It's kind of [REDACTED] to have full capacity of your mind when you're hooked up to a ventilator with COVID. And it's kind of [REDACTED] after someone's already moved you out of your home and someone's already promised to someone else. Your land it's kind of [REDACTED] to turn around say Well, I'm sorry, a small land and then kick them off, especially after they've already cleared it. So what this looks like is looks like two individuals screwing out an elderly man of his property is exactly what this looks like. Unknowingly doing so.

[REDACTED] [REDACTED] 12:29

They knowingly took advantage of an old elder man she didn't mind this property and took it from docile situation that took place

[REDACTED] [REDACTED] 12:49

they waited till date to be sick, and to be in a point where he was sick and he was weak. And they went in, convinced and talked him out of it, talked him out of his own home, and then took advantage of control of it. And now they're trying to push everyone else that lives on this road around. That's what's happening. That's the odd things that are happening on Macomb route
