chamber. You remember the county commissioners, right? The county commissioners? Yeah. You know the same kind of County Commissioners the broad, green, green New Deal energy down to the mark man. Not once or twice those kinds of commissioners, the ones that have been encouraged in communist energy or the county commissioners that approved a rock quarry that was that without question is going to devalue homes in the market. That never that always promised to bring money. And to the county they always probably business opportunities. Counties. They always promised to bring money in business opportunities county but they never deliver Yeah, that kind of commissioners. Yep. That's your county commissioners. And what did you do? You put them right back in power. They approved it [REDACTED] and [REDACTED] They're not interested in your concerns. They're not interested in anything you want. The only thing they're considered in his business. And when they say business they don't mean your business. They mean their business.

And they may say it's green with a noun so they're conservative, but yet then yet they brought it in every time they brought in. Green New Energy deal stuff that doesn't work on marketing. told me Hey, you know, they're only in business. They're interested in his big business. They're not even mentioned in your small business. concerns. They're interested in corporate concerns. That's what they're
