## **Untitled Note**

SUMMARY

target, upper right hand, hitting, corner, left

## **SPEAKERS**

I had to read zero 32 down, plus four is I had to read zero down Down, and I was shooting off the target to the right. So I had to move the target over by four which was 16 to the left, and then it came another four should be 20 to the left, and I'm back on I'm on the target now but I'm still hitting my target in the upper right hand corner.
