130 in the morning on Sunday morning, and we've already had a eventful night where the Mrs. Taylor or I guess it's her son came flying out and they're [REDACTED] This [REDACTED] truck that has been modified to be loud diesels are not nested or not natively, are not normally that loud. They don't come out of the factory that loud. So it's been already been modified to make it loud. And for it to Reb high and they've been staged, pulled out of their driveway. And this occurred about 10 o'clock, maybe like 1030 they pulled out their driveway. And then they stopped in front of my house, read their engine and peeled out and then they came about halfway up between our two houses, stopped, read their engine and blew past and then when they got to the highway they stopped, read their engine and blew past and then they came in front of my house and did it [REDACTED] And they got as they stood in front their [REDACTED] and they read there they maxed out their engine, topped it out and [REDACTED] really cried and a lot a lot of unnecessary [REDACTED] you know [REDACTED] that's disturbance of peace. That's an irritation. That's harassment and that's a disturbing the peace. And so they [REDACTED] did it [REDACTED] They've been doing it since their badgering session where they bet where they were badgering me. They were Yeah, [REDACTED] [REDACTED] hurling insinuations trying to start a fight being conflicting. I wasn't, you know, and that was totally unprovoked totally uncalled for. I didn't say anything. I didn't do anything. I didn't want him Look at him. And they wanted me to look at them. That was their thing and I [REDACTED] ignored him. I didn't even look at him. I looked at the ground I kept on walking. I didn't even know they were there. Until they started they started hollering at me. And I was [REDACTED] not you know, I'm not gonna take it I'm not gonna take any more. I should probably I don't know whether to call the sheriff or not, because I doubt that any of that. Is any good. I doubt that they're doing anything. They'll do anything about it. But you know, they need to get the idea that this is not cool. So and, yeah, this is like was it two nights ago was the second time they they've done this before they'll sit outside the property that it's closest to. It's actually set the middle middle between our two houses. And they'll sit out there on the like in their driveway and then they'll they'll talk to us and badgers and public and verbally harass us trying to start a fight and try and [REDACTED] a fight. Second time has happened now. I don't know what the problem is, but I'm tired of it.
