So I [REDACTED] wanted to also remark that my mom discovered that the the all of the people that are involved in this all of their information that's been hidden on the on the public tax [REDACTED] website so all of their information has been hidden on the public [REDACTED] tax information website, and acute public and we found out there's a building permanent for there's a building permit for what's his face

[REDACTED] [REDACTED] 01:06

and I [REDACTED] got to get back and get good information from Mr. Simmons and it doesn't have Mr. Simmons name on it. It has like Kevin McDaniel or something like that. Which so it's kind of [REDACTED] So so we got to find out that was it or whatever. It seems like there might have been even more but you can't find out anything because the Texas [REDACTED] doesn't she takes six months. She's claimed to take six months for updating him but it's kind of arbitrary. And it shouldn't be taking that longer to update that information. But now and all the information except for all the information on the Cube public is being withheld. She's violating the Freedom of Information Act. So she's doing all that and so we're gonna it [REDACTED] gets bigger and bigger and the more they tried to weasel out of things. The bigger than this. It's kinda like a lie. Once you get one line. You have to tell another and even bigger line and then you [REDACTED] keep on the next thing you know, it's [REDACTED] gotten out of control so
