So today we had the we had this really appliance in his black truck brand for canoes or blue black truck. And he came by trip down the road, like slowest nail and it [REDACTED] was so obvious he was like [REDACTED] rubbernecking. He was [REDACTED] staring as he was [REDACTED] absolutely snail's pace.

00:29

And we're [REDACTED] wondering like what the [REDACTED] you know what the [REDACTED] going on here?

00:35

You know? Cuz and here goes. This guy's been sitting at the end of the driveway for like, 15 minutes he turns his lights on every once awhile. He [REDACTED] pulled up there and he [REDACTED] sat. He [REDACTED] sat here at the end of the driveway for for at least 10 or 20 minutes. [REDACTED] it's like a brand new Chevrolet going on the road and he was going so slow. He was obviously looking at us. And then he went up to top Hill and ate around and then he came back to move all the way down the road. And he's driving as slow as you could and he's like, you know, it's obviously like he was looking at us and whatever. And then a couple minutes ago, [REDACTED] when I thought to leave, here it comes. Comes down the road slow is gonna be staring at me my dog.

01:48

Now he's actually gotten out of his truck parked at the end of the rear road. And he's gotten out of his truck now. So I'm [REDACTED] wondering what the [REDACTED] going on here

02:15

so I'm [REDACTED] gonna type this exposure so actually chased him all the way down and then chase him around the corner. Because the ones who were pulled in, of course, he pulled it on top of the hill.

02:28

And then now I walk home and he's pulling out of their driveway. And I've been saying before, he's been sitting on top of that hill for at least 10 or 15 minutes he [REDACTED] said that he's got his lights on. It's like trying to throughout the [REDACTED] doesn't really care. You know what he's doing? Has No, you know, no concern for you know,

02:53

the fact he's lighting up everybody's house out here he's [REDACTED] sitting here. So I guess I'll hang with him for a couple minutes and then I'll

03:13

call the sheriff and come on, get the sheriff to [REDACTED] why this guy is sitting out in the road here.

03:28

So it's kind of [REDACTED] so yeah our to do but I don't get to like to sit out here and won't look at him.

04:06

As for sure. We got to get security cameras out here for sure. There's as you can trust me we always like interesting people

04:32

anyway, um, room [REDACTED] so I'm gonna go inside my house now. And hopefully that will urge him to piss off. And here he's turning now. He's turning turning, we finally have a turn. And then here comes He's creeping down the road as low as he can.

05:05

He's about halfway down the hill now. He's moving probably about a mile an hour. And he's almost by the driveway now. He's past the driveway. He's going in from the house. He's turned on his bright lights and then wait or wait for he's almost past was in now he's going up to the hill and it's on. So I was [REDACTED] really [REDACTED] Oh, I'll have to they're gonna lead
